## THE LIVESTOCK MARKETS

BEST HEAVY CATTLE ACTIVE AT STRONG TO HIGHER PRICES.

Hogs Moderately Active and Unevenly Higher-Sheep Lower-Condition of Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS June 20 .- Cattle-Receipts, 1,150; shipments, 500. Thus far this week the marketing of pared with the same time last week and an increase of about 1,200 over the corresponding time a year ago. The receipts to-day were about 150 smaller than a week ago and 100 larger than a year ago. A very heavy cattle of good quality and flesh class there was active competition from the start and the supply was exhausted early at strong prices, some sales being the highest in twenty years. The class of cattle just below these, however, dld not move as readily, and salesmen had some difficulty in getting steady prices compared with yesterday. Medium cattle, especially light weight kinds, were again very plentiful, and with no competi- | culls, \$2@2.50; lambs, \$5@7.15; culls, \$4.50. tion and a very limited demand for that hogs, \$7.65. sort the market was exceedingly dull and prices were very irregular, but if any different, lower than they have been at any time recently. There was only a fair request for stockers and feeding cattle and prices were hardly up to expectations. Since last Friday the good female butcher cattle have suffered a decline of possibly 10@25c and common to medium stock probably 25@50c, while the best heavy steers have continued fully steady to strong. Steers sold as high as \$7.75, heifers at \$5.75 and cows at \$5.20. Quotations: Good to choice steers, 1,350 lbs

and upwards .... Common to medium cows and Hogs-Receipts, 5,500; shipments, 2,500. There is a decrease of about 2,000 hogs in the marketing thus far this week compared with the same time last week and over | @7 6,000 compared with the corresponding time a year ago. The receipts to-day were quite as large as a week ago and nearly 2,500 smaller than a year ago. The quality was nearly as good as the average for a few days, but there were not many prime heavy hogs. The market opened with a better shipping demand than there has been for some time past and with orders principally for the light weights there was active competition for that class and they sold New York Evening Post. promptly at an average gain of fully 10c n prices over yesterday. Packers did not have much opposition for the heavier grades, therefore they did not show as much average gain as lighter hogs, but the market was generally considered 5616c better than yesterday. After the shipping | scape; that it made the sky line one terdemand had been very well supplied the market naturally was less active, but finally a satisfactory clearance was made and the last sales did not show any quota- load down the island of Manhattan, he ble change compared with earlier in the turned to a friend and said: The range in prices was from \$6.85@7.70 and a small proportion of the supply sold below \$7. Quotations:

Good to choice medium and heavy.\$7.35@7.7 Mixed and heavy packing ...... Good to choice light weights ...... 7.00@7.20 | Washington Star. Common to fair light weights ..... 6.85@6.96 Common to good pigs ...... 6.00@6.75 Roughs 6.25@7.00

liberal, indicating an increase of over 500 compared with the same time last week and about 1,300 compared with the corresponding time a year ago. The receipts today were not quite as large as a week ago and 450 larger than a year ago. The market opened with a fair inquiry from local butchers and the first few transactions did not show much change in prices compared with yesterday. They bought only a small number, however, and when shippers were left without much competition there was a decidedly weaker tendency in the market and finally salsmen were forced to take off at least 25c in prices to make a clearance There were a few lambs that brought \$6.25, but \$6 was practically the top and other sales ranged from \$445.75. Yearling mbs sold at \$3,50074.50, but \$4.25 was practically the top, and \$3.50 was considered the top price for old sheep with other sales at \$2,2502.25. Bucks sold at \$2,2502.75. Quo-

### LITTLE DOING IN STOCKS

NEW YORK MARKET IN AN APA-THETIC CONDITION FRIDAY.

Less Than Half a Million Shares Sold -Sterling Exchange a Fraction Higher-The Surplus.

NEW YORK, June 20 .- The speculative liquidation which broke prices yesterday was no longer in evidence to-day, but the market slipped back into a rather apathetic condition, the dealings dropping well below half a million shares again. Of this total a large proportion was concentrated in a few leading stocks, notably United States Steel, Missouri Pacific, St. Paul and the Wabashes. The evidence of support for United States Steel was an effective influence in steadying the market as yesterday's sharp break in that stock had unsettled sentiment in the whole market. There was evidence of rebuying of stocks by the large interests which liquidated yesterday and the day before. This served to relieve a latent feeling that the recent bull campaign had been a preliminary to a prolonged bear campaign.

To-day's strength was restricted to a few points and was not very well maintained, the closing being dull and heavy. The Southwesterns and St. Paul absorbed a large share of the strength. St. Louis Southwestern preferred rose nearly 3 points, and in connection with a slightly greater rise in Chicago & Eastern Illinois gave rise to a report that the latter road was to be purchased by the former. The movement in the Western roads was not accounted for by the crop news, which was rather unfavorable as to grain. The coal-Fair to medium heifers...... 4.25@ 4.85 | ers were rather neglected and moved in

day night of over \$3,000,000 gave rise to the Common to fair bulls...... 2.75@ 3.50 hope for a favorable bank statement to-Good to choice cows and calves.. 35.00@50.00 | morrow, as the offsetting absorption by the subtreasury for the same period was only \$397,000. Bankers expressed the opinshow a considerable expansion in loans, but the continued ease of call money does

materially impaired. More attention was given to the sterling exchange market, which advanced an additional fraction, London selling stocks here freely. Continental exchange was also strong, while sterling at Paris fell another fraction. The Bank of England gained nearly \$3,000,000 in gold yesterday, which is regarded as a reassuring development for the whole financial world in view of the heavy semi-annual requirements upon that institution. Heavy pension payments during the week are the cause of the light demands of the New York subtreasury upon the money market It is a notable fact that the government's surplus revenue is still under \$4,000,000 for this month, compared with nearly \$11,000,-000 for the same period in last June, and Twenty Transfers Made Matter of reports from Washington indicate that the treasury authorities hardly expect the year's surplus to reach the estimated figure of \$90,000,000. With ten days remaining of the fiscal year, the surplus is still below \$80,000,000. The rains in the West, which are delaying the harvesting of grain, promise also to postpone the demand on New York for money to move the crops. There was an active demand for some of the Southwestern railroad bonds. The market generally was irregular. Total sales at par value were \$3,935,000. United States twos, coupon, declined % per cent. on the last call.

Following are the day's share sales and

New York Times. If the average amateur photographer would not attempt to make portraits! It is bad enough to be misrepresented in an out-of-doors group, but when the snapshot man turns his attention to heads and poses them near the camera it is too much. One of these mental torturers did this the other day. He cajoled a much-photographed neighbor to allow him to practice upon her for the full face. His must have been an excellent lens, for nothing escaped it. It seemed to have X-ray qualities. It brought defects out of that poor woman's face of which she had never dreamed. There were big freckles, which she had not made her twenty years older than she really was, savage lines about her mouth. and her hair was turned into broom corn. "There, I think that is a pretty good That is a good likeness.' It was a likeness, too. There was the same hideous unlikeness with not even the | 78%@79%c, closing at 79%c.

humorous excuse for it. It was all blank No one will know the blow it was to the woman to receive that awful thing as all day, but generally firm on a small her picture. Her friends only half guessed | movement, the strength in wheat and modit when she timidly asked if they thought | erate covering. The close was 1/40% net looked very much like her. She had higher. Negrophile Sarcasm.

Springfield Republican. Miss Mary Custis Lee, of Alexandria,

Va., has some of her celebrated father's disinclination to yield ground in response to coercion. This daughter of the late Gen. R. E. Lee may have no objection, based on principle, to the Virginia law providing for the separation of the white and black races on railroad and street cars, but when she had once seated herself in the negro compartment of the electric car going from Washington, D. C., to Mount Vernon, on Friday, she refused to budge. The conluctor, finding that his repeated sclicitations were without effect, had Miss Lee arrested in Alexandria. She was released at the mayor's office, after promising to appear in court, if summoned, to answer to a charge of violating the law. Owing to her relation to the late General Lee, the case will not be pressed against her. Miss Lee's course, whatever her motive may have been, compels admiration. It is nothing but petty tyranny for the State of Virginta to prohibit Mary Custis Lee from riding with negroes if she chooses to ride

WHEAT ADVANCED 7-Se ON THE CHI-CAGO BOARD OF TRADE.

Rise Influenced by Reports of Damage Caused by Wet Weather-Corn, Oats and Provisions Higher.

CHICAGO, June 20 .- Wet weather influenced breadth and bullish activity in wheat to-day. Continuous rains in the standing wheat and much excitement in the foreign and England pushed prices up and the general bullish sentiment engendered by the news held prices very near top figures. The bulls in the corn pit rested, but the wheat influence was enough to put prices both in corn and oats on a stronger basis. At the close July wheat was %c higher, July corn %c up and July oats %@%c advanced. Provisions showed marked inde-

pendence and closed 10@121/c higher.

From the outset wheat was bullish. Liverpool made good advances and Paris, in addition to yesterday's strength, showed were extremely nervous over the prospect | of short crops in consequence of weather. Cargoes off coast were in great demand and prices were advancing for spot cereals and flour. At home, rains fell continuously and more were predicted. Advices from Nebraska stated that the wheat was ripe and waited cutting, but that the ground was in such a soaked condition that farmers could not attempt the work, Further than this grain that had been cut in other States was damp and would not grade contract. Wheat, with this bullish | \$5.15. news and a general improvement in outside usiness on the Board of Trade, shorts cona fair cash demand and the future market showed no soft spots. It was supposed that there was a large long interest in July wheat, but if such were the case, not enough of the holdings were unloaded to 140%c higher at 73%@74c, gradually attained 2, 71@71%c; sample, 63@70c. 741/2074%c, and on a little realizing eased, but ended with a strong close, %c up, at 74%c. Trading was very good in deferred futures. Local receipts were twenty-five cars, two of contract grade. Minneapolis and Duluth reported 293 cars, making a total for the three points of 318 cars, against 245 cars last week and 293 cars a year ago. Primary receipts were 339,000 bu, compared to 447,000 bu last year. Seaboard clearances, in wheat and flour, equaled 171,000 bu. Arto 304,000 bu last week. The seaboard reported fifteen loads taken for export. Corn was strong and higher most of the session, but ruled comparatively quiet. The

big bulls were seemingly dormant, awaiting another opportunity in which to carry out their manipulative plans. Trade was small and was done mostly by commission houses. There was a fair demand in the more distant futures, and nothing new developed in the July "deal." Strength of wheat and the wet weather were the bullish incentives. There was almost no selling pressure. While receipts were increased at 229 cars, only twenty-two cars graded contract. July sold between 654c and 66c, and closed firm, 4c up, at 651/2c.

Water in the oats fields was a threaten-

ing danger to bears in the oats pit, and

at once started some of the more diffident shorts to covering. Cash stuff was in good demand and some of the better grades sold to-day as high as 48c. There was only a little scattered selling, and although trade was not large on the buying side, the position of oats was so strong that July, new, again sold at 40c. The close was very firm, with July %@%c up at 39%c. Receipts were 161 cars, only ten of contract grade. Provisions showed marked and independent strength all day. The hog market started out strong, but gradually eased off. All the product list responded to the early strength at the yards and made sharp advances. Cash stuff was in good demand at higher prices, and all the small offerings were quickly absorbed by packers' brokers. A slight dip followed the steady close of the hog market, but the end of the session showed prices almost at the top. Best figures of the year were made to-day. July oork sold at \$17.921/2 and closed 121/2c up at

Broadway and Chambers street corner of City Hall Park, as Justiecs Scott and Fitzgerald, of the Supreme Court, were passing, "Ah," said Justice Scott, "what have we here, a breach of the peace?" "Oh, no," responded Justice Fitzgerald, 'merely two harps that beat as one. "Say, Uncle Midas, old Pemquid wants to

sell out his seat in the Stock Exchange. was the insinuating remark of a scion of the house of Roseburg to a rich and indulgent bachelor relative from whom he had great "How much, Isaae?" "Only \$75,000." "Only \$75,000! Vell, Isaac, I think you had better stood up a vile yet.

A thin-faced woman with a red nose and circular flounce was charging across Sixth avenue toward a window in which was a placard announcing "bargain sales in -The street was crowded with carriages, trucks and street cars, and she would have been run down but for a district messenger boy who rushed out and, grabbing her arm, steered her safely to the curb. "Chee," he panted, as he saw her take a new start for the bargain counter. "de Broadway squad couldn't keep one o' them kind from a bargain counter, It was a Brooklyn young man, candidate for a license as teacher in chemistry, who faced Dr. George T. Smith, chief of the educational department's board of examiners.

a few days ago. The quiz closed with this;

'What are the chemists of to-day trying "Most of them in New York seem to be trying to qualify as experts in murder cases," blurted out the perplexed young man, who evidently read the papers, if he didn't know what is going on in the world of chemistry. It was not exactly what Dr.

Smith expected, but the candidate went Light bits are these, and half lost in the telling, of the endless "stringing" to be heard from waking to sleeping wherever

A Queen of Many Trades. London To-day.

The queen wasp is one of the most wonthe year she is an uncrowned queen, for she has no kingdom and no people. Her husband died of hunger, cold and early old world when she feebly buzes out into the uncertain climate of our English spring. But she has a brave heart, and is soon prospecting for a convenient slope in a sheltered bank for her future capital. Here she digs like a miner, using her royal jaws for pick-ax and her slender feet as rakes. So she excavates a tunnel leading to a "Eatee, dlinkee, dlunkee," replied Ah Sin, vaulted cave, and then she changes from a miner to a papier-mache maker, and again, with no other tools but her royal jaws and It was a flery haired longshoreman, feet, converts the filmy flakes of dead wood that she gnaws off some old log into thin paper, of which, now turning architect. she builds a number of little rooms or cells, all hanging together side by side from a williar which she has fastened to the roof. Next she becomes a mother, laying an egg in each cell; and then, turning huntress and nurse, she provides all of the little red above the green," was Reddy's vindica- grubs which emerge from the eggs with
